	Special Interim Dividend	0.50¢	0.50¢
<b>2.5</b>	<b>Record date for Final &amp; Special dividends</b>	20 September, 2007	
	Payment date for Final & Special dividends	4 October, 2007	

## 2.6 Operating Results for the Period

Pro Medicus reported an after tax profit of \$7,052 million making this the most profitable year in Pro Medicus history. Revenue also rose to a record \$13,035 million an increase of 11.9% on the previous year.

The company's Australian operations performed well over the past year with revenue increasing by approximately 3.4% from 9.1M to 9.4M. Promedicus.net, the company's e-health offering, continued its growth in both the number of doctors registered as well as transaction volumes with the network carrying 3.1 million transactions for the year, a 7.2% increase on the previous year.

The number of doctors registered to use promedicus.net increased from 22,000 doctors to 25,300 an increase of 15% compared to the same time last year, and the company intends to leverage its relationship with them to cross-sell its other products and services.

Building on the success of the first digital imaging installation at Lake Imaging, the company has now installed the technology at an increasing number of sites, covering private, large corporate and public radiology providers. Increased levels of market interest reinforce the company's confidence that the efficiency and clinical benefits the technology offers will inevitably drive the radiology industry towards a fully digital environment.

The past year has also seen the company continue to make significant inroads into overseas markets particularly the US and Canada with revenue from overseas operations increasing from \$2.308 million to 3.092 million a 33.96% increase.

The North American market provided approximately 24% of the total revenue and Pro Medicus aims to continue to expand within this lucrative market by leveraging Agfa's substantial presence in the US and by extending its product offering.

Canada has also continued to provide ongoing opportunity for the company providing approximately 10.4% of the total revenue.

Throughout the year, the company continued its focus on higher margin software sales, e-health and services. Net margin as defined by profit before tax to revenue from operating activities increased from 75.8% in 2006 to 77.6% in 2007.

The Company is pleased to report a dividend return to shareholders of a total of 7.0 cents per share which is an increase of 1.5 cents over the previous period and represents the largest dividend payout in the company's history. This is made up of a final dividend of 3.00 cents plus a special dividend of 1.00 cent per share plus the interim dividend of 2.50 cents plus a special interim of 0.5 cents.

The directors are confident that the holdings of reserve cash after paying out both the second half and special dividends is sufficient to safeguard the development and expansion needs of the company as the business looks to increase its penetration of existing markets and new product development.
