

Pro Medicus Limited Half-Year report

DIRECTORS' REPORT

Your directors submit their report for the half-year ended 31 December 2002.

DIRECTORS

The names of the directors of the company in office during the half-year and until the date of this report are:

Melvyn Keith Ward	B.E.(Hons), M.Eng.Sc., F.I.E.(Aust), F.T.S., F.A.I.M., I.V.A.(Chairman)
Peter David Jonson	B.Comm(Hons), M.A.(Hons), PhD, F.A.I.C.D., F.A.A.S.S. (Deputy Chairman)
Dr Sam Hupert	M.B.B.S. (Managing Director and Chief Executive Officer)
Anthony Hall	B.Sc.(Hons), M.Sc. (Executive Director and Technology Director)
Philip Molyneux	B.Econ, F.C.A. (Non-Executive Director)

REVIEW AND RESULTS OF OPERATIONS

The company is pleased to announce a record first half profit of \$2.438 million, an increase of 15.6% as compared to the same period last year. This was achieved on revenue of \$5.185 million, an increase of 6.3%.

Earnings per share rose from 2.1c to 2.4c reflecting the underlying strength of the company's ongoing business. Margins, as calculated as a percentage of operating profit to revenue, were enhanced as a result of the company's continued focus on promoting its software, e-health and services offerings rather than lower margin hardware sales. Cash reserves increased to \$8.77 million and the company remains operationally debt free. As a result, the board has raised the interim dividend to 1.25c per share fully franked.

All business divisions performed strongly during the first half with good uptake of core product throughout the period as well as the growing trend for the medical industry to adopt promedicus.net as its preferred means of electronically delivering results. Over 50% of GPs around the country now use promedicus.net to receive their radiology results. The company is well placed to leverage this position by extending its services to other non-radiology providers. Research and development activity continued throughout this period with excellent progress being made in a number of areas including the development of new versions of the Practice Management and Appointments systems for the UK market as well as further development of the company's digital imaging/PACS integration products. In keeping with company policy all R&D costs relating to these development projects were fully expensed.

Highlights for the half-year include:

- The Agfa Alliance

This alliance has created a significant growth opportunity for the company as the trend towards digital radiology (PACS) gains momentum in the private radiology market. Following the successful commercialisation of the PACS integration products in June 2002, the company announced the successful implementation of the technology at Lake Imaging, a leading Victorian regional radiology practice in October of last year. Lake Imaging has now become a key reference site, a factor that will greatly assist in future sales of these products.

- Continued growth of promedicus.net

Promedicus.net, the company's e-health offering, continued its strong growth throughout the six-month period. Over 3 million radiology results have now been sent via promedicus.net with transaction volumes growing to over 150,000 transactions per month. Uptake of the service showed no signs of abating with over 11,000 practitioners, a figure representing over 50% of Australia's GP's registered to receive diagnostic results via this channel. This trend is expected to continue. The company is also looking to expand the basis of providers for promedicus.net by offering the service to the 16,500 specialists throughout Australia as well as other health service providers thereby maximising the value of the promedicus.net channel.

- Expansion into the UK

A key milestone was reached during the six-month period with the sale of the Pro Medicus Practice Management (PMS) and Appointments systems to MIA Lodestone of the UK, a fully owned subsidiary of MIA Australasia. This, the first international sale of the company's products, positions Pro Medicus well in terms of future sales in the UK, a market over 3 times the size of the Australian market, as well as providing potential opportunities in mainland Europe. A key feature of the deal is the ability to use the fifteen Lodestone sites to demonstrate this technology to other potential UK clients, thereby minimising the cost of establishing demonstration/sales facilities within the UK.

The directors believe that the record half-year results positions the company for growth in the current financial year.

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

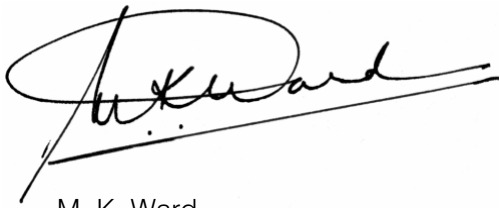

A fully franked interim dividend of 1.25 cents per share has been declared.

No other significant post balance date events have been identified.

ROUNDING

The amounts contained in this report and in the half-year financial report have been rounded off under the option available to the company under ASIC Class Order 98/100. The company is an entity to which the Class Order applies.

Signed in accordance with a resolution of the directors.

Earnings per security (EPS)

10. Details of basic and diluted EPS reported separately in accordance with paragraph 9 and 18 of *AASB 1027: Earnings Per Share* are as follows.

EPS has been calculated as follows:
 Numerator is the unadjusted Profit After Tax of \$2,438,382 per reference 1.22 in this report.
 Ordinary shares issued at 31 December 2002 were 100,000,000 plus potential ordinary shares comprised the current total options of 2,470,000 of which a further 1/5 vested on 20 August 2002. This provided an additional 494,000 potential shares for the current period and resulting in 988,000 potential shares since the inception of the plan.
 The weighted average number of shares used as the denominator for basic earnings per share is 100,000,000

Effect of dilutive securities is
 687,304
 The weighted average number of shares used as the denominator for diluted earnings per share is 100,687,304

Segment reporting

(Information on the business and geographical segments of the entity must be reported for the current period in accordance with *AASB 1005: Segment Reporting* and for half year reports, *AASB 1029: Interim Financial Reporting*. Because entities employ different structures a pro forma cannot be provided. Segment information in the layout employed in the entity's ⁺accounts should be reported separately and attached to this report.)

The Company operates predominantly in one industry being information technology within the health care industry and in one geographical area being Australia.

Comments by directors

(Comments on the following matters are required by ASX or, in relation to the half yearly report, by *AASB 1029: Interim Financial Reporting*. The comments do not take the place of the directors' report and statement (as required by the Corporations Act) and may be incorporated into the directors' report and statement. For both half yearly and preliminary final reports, if there are no comments in a section, state NIL. If there is insufficient space to comment, attach notes to this report.)

Basis of financial report preparation

19.1 *If this report is a half yearly report, it is a general purpose financial report prepared in accordance with the listing rules and AASB 1029: Interim Financial Reporting. **It should be read in conjunction with the last ⁺ annual report and any announcements to the market made by the entity during the period.** The financial statements in this report are "condensed financial statements" as defined in AASB 1029: Interim Financial Reporting. This report does not include all the notes of the type normally included in an annual financial report. [~~Delete if preliminary final report.~~]*

19.2 Material factors affecting the revenues and expenses of the economic entity for the current period. In a half yearly report, provide explanatory comments about any seasonal or irregular factors affecting operations.

Please refer the Directors' Report

19.3 A description of each event since the end of the current period which has had a material effect and which is not already reported elsewhere in this Appendix or in attachments, with financial effect quantified (if possible).

⁺ See chapter 19 for defined terms.

Please refer the Directors' Report

- 19.4 Franking credits available and prospects for paying fully or partly franked dividends for at least the next year.

As at 31 December 2002 franking credits available to the company were in excess of \$8m based on the current tax rate of 30%. This in addition with periodic ongoing taxation payments is considered sufficient franking credits to enable the Company to pay fully franked dividends for the next year.

- 19.5 Unless disclosed below, the accounting policies, estimation methods and measurement bases used in this report are the same as those used in the last annual report. Any changes in accounting policies, estimation methods and measurement bases since the last annual report are disclosed as follows. (Disclose changes and differences in the half yearly report in accordance with *AASB 1029: Interim Financial Reporting*. Disclose changes in accounting policies in the preliminary final report in accordance with *AASB 1001: Accounting Policies-Disclosure*).

At 1 July 2002, the company followed the requirements of AASB 1044 "Provisions, Contingent Liabilities and Contingent Assets" for the first time. The company's previous policy was to record a provision for dividends at the end of the reporting period that would later be ratified by the Board of Directors. Under the requirements of AASB 1044, a provision for dividends payable can only be recognised once the dividend has been declared, determined or publicly recommended. As the dividend was declared after 31 December 2002, no provision for dividend has been recognised in the Statement of Financial Position.

There has been an increase of \$1.5 million to the opening retained earnings as a result of the change in accounting policies.

- 19.6 Revisions in estimates of amounts reported in previous interim periods. For half yearly reports the nature and amount of revisions in estimates of amounts reported in previous +annual reports if those revisions have a material effect in this half year.

Not Applicable.

- 19.7 Changes in contingent liabilities or assets. For half yearly reports, changes in contingent liabilities and contingent assets since the last + annual report.

Not Applicable.

+ See chapter 19 for defined terms.

Notes

1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show whether the change was up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. Entities are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
2. **True and fair view** If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must attach a note providing additional information and explanations to give a true and fair view.
3. **Condensed consolidated statement of financial performance**
 - Item 1.1 The definition of "revenue" and an explanation of "ordinary activities" are set out in *AASB 1004: Revenue*, and *AASB 1018: Statement of Financial Performance*.
 - Item 1.6 This item refers to the total tax attributable to the amount shown in item 1.5. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg, fringe benefits tax).
4. **Income tax** If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franked amount per security at % tax" for items 15.4 to 15.7.
5. **Condensed consolidated statement of financial position**

Format The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029: Interim Financial Reporting*, and *AASB 1040: Statement of Financial Position*. Also, banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last ⁺annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 1010: Accounting for the Revaluation of Non-Current Assets*. If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.
6. **Condensed consolidated statement of cash flows** For definitions of "cash" and other terms used in this report see *AASB 1026: Statement of Cash Flows*. Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 1026*. ⁺Mining exploration entities may use the form of cash flow statement in Appendix 5B.

⁺ See chapter 19 for defined terms.

7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ⁺ordinary securities (ie, all liabilities, preference shares, outside ⁺equity interests etc). ⁺Mining entities are *not* required to state a net tangible asset backing per ⁺ordinary security.
8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the ⁺accounts. Details must include the contribution for each gain or loss that increased or decreased the entity's consolidated profit (loss) from ordinary activities and extraordinary items after tax by more than 5% compared to the previous corresponding period.
9. **Rounding of figures** This report anticipates that the information required is given to the nearest \$1,000. If an entity reports exact figures, the \$A'000 headings must be amended. If an entity qualifies under ASIC Class Order 98/0100 dated 10 July 1998, it may report to the nearest million dollars, or to the nearest \$100,000, and the \$A'000 headings must be amended.
10. **Comparative figures** Comparative figures are to be presented in accordance with *AASB 1018* or *AASB 1029 Interim Financial Reporting* as appropriate and are the unadjusted figures from the latest annual or half year report as appropriate. However, if an adjustment has been made in accordance with an accounting standard or other reason or if there is a lack of comparability, a note explaining the position should be attached. For the statement of financial performance, *AASB 1029 Interim Financial Reporting* requires information on a year to date basis in addition to the current interim period. Normally an Appendix 4B to which *AASB 1029 Interim Financial Reporting* applies would be for the half year and consequently the information in the current period is also the year to date. If an Appendix 4B Half yearly version is produced for an additional interim period (eg because of a change of reporting period), the entity must provide the year to date information and comparatives required by *AASB 1029 Interim Financial Reporting*. This should be in the form of a multi-column version of the consolidated statement of financial performance as an attachment to the additional Appendix 4B.
11. **Additional information** An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the ⁺ASIC under the Corporations Act must also be given to ASX. For example, a director's report and declaration, if lodged with the ⁺ASIC, must be given to ASX.
12. **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
13. **Corporations Act financial statements** This report may be able to be used by an entity required to comply with the Corporations Act as part of its half-year financial statements if prepared in accordance with Australian Accounting Standards.
14. **Issued and quoted securities** The issue price and amount paid up is not required in items 18.1 and 18.3 for fully paid securities.
15. **Details of expenses** *AASB 1018* requires disclosure of expenses from ordinary activities according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by ASX. *AASB ED 105* clarifies that the disclosures required by *AASB 1018* must be either *all* according to nature or *all* according to function.

⁺ See chapter 19 for defined terms.

Entities must disclose details of expenses using the layout (by nature or function) employed in their ⁺accounts.

The information in lines 1.23 to 1.27 may be provided in an attachment to Appendix 4B.

Relevant Items *AASB 1018* requires the separate disclosure of specific revenues and expenses which are not extraordinary but which are of a size, nature or incidence that disclosure is *relevant* in explaining the financial performance of the reporting entity. The term “relevance” is defined in *AASB 1018*. There is an equivalent requirement in *AASB 1029: Interim Financial Reporting*. For foreign entities, there are similar requirements in other accounting standards accepted by ASX.

16 Dollars If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to “000” must be changed to the reporting value.

17. Discontinuing operations

Half yearly report

All entities must provide the information required in paragraph 12 for half years beginning on or after 1 July 2001.

Preliminary final report

Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by paragraph 7.5 (g) of *AASB 1029: Interim Financial Reporting*, or, the details of discontinuing operations they are required to disclose in their ⁺accounts in accordance with *AASB 1042 Discontinuing Operations*.

In any case the information may be provided as an attachment to this Appendix 4B.

18. Format

This form is a Word document but an entity can re-format the document into Excel or similar applications for submission to the Companies Announcements Office in ASX.

⁺ See chapter 19 for defined terms.

INDEPENDENT REVIEW REPORT

To the members of Pro Medicus Limited

Scope

We have reviewed the financial report of Pro Medicus Ltd in the form of Appendix 4B of the Australian Stock Exchange (ASX) Listing Rules, as set out on pages 1 to 16 and the Directors' Declaration for the half-year ended 31 December 2002, but excluding the following sections:

- Material factors affecting the revenues and expenses of the economic entity for the current period (page 14); and
- Compliance statement (page 16)

The financial report includes the financial statements of the parent entity, Pro Medicus Limited. The disclosing entity's directors are responsible for the financial report. We have performed an independent review of the financial report in order to state whether, on the basis of the procedures described, anything has come to our attention that would indicate that the financial report is not presented fairly in accordance with Accounting Standard AASB 1029 "Interim Financial Reporting" and other mandatory professional reporting requirements in Australia, statutory requirements and ASX Listing Rules as they relate to Appendix 4B, and in order for the company to lodge the financial report with the Australian Securities and Investments Commission and the ASX.

Our review has been conducted in accordance with Australian Auditing Standards applicable to review engagements. Our review was limited primarily to inquiries of the entity's personnel and analytical review procedures applied to financial data. These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance provided is less than that given in an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Review Statement

As a result of our review, we have not become aware of any matter that makes us believe that the half-year financial report, as defined in the scope section, of Pro Medicus Limited is not in accordance with:

- a) the Corporations Act 2001, including:
 - (i) giving a true and fair view of the company's financial position as at 31 December 2002 and of its performance for the half-year ended on that date; and
 - (ii) complying with Accounting Standard AASB 1029 "Interim Financial Reporting" and the Corporations Regulations 2001; and
- b) other mandatory professional reporting requirements in Australia and ASX Listing Rules as they relate to Appendix 4B.
