Diversity can broaden the pool for recruitment of high-quality employees, enhance employee retention, improve the Company's corporate image and reputation, and foster a closer connection with and better understanding of customers. It is important that Pro Medicus is able to attract, retain and motivate employees from the widest possible pool of talent.

2. What Diversity Means to us

2.1 What is diversity?

Diversity refers to characteristics that make individuals different from each other. Diversity encompasses differences in backgrounds and experiences, and also

differences in approach and viewpoints. It includes factors such as gender, age, ethnicity, marital or family status, religious beliefs, cultural background, socio-economic background, sexual orientation, gender identity, sexual preference, language, disability and other areas of potential difference.

2.2 Inclusion

Pro Medicus is committed to inclusion at all levels of the organisation regardless of the diverse background or experience of its employees.

2.3 Gender diversity

The Company has a commitment to gender diversity and the fundamental principle that gender is not a barrier to participation in our workforce, management, senior executive and on our Board. Our leaders are committed to providing opportunities that allow all staff to reach their full potential, regardless of gender.

The Board may consider the establishment of measureable objectives to achieve gender diversity for the board, senior executives and the organisation as a whole, and if they are established, will disclose the Company's progress towards achieving those objectives in the Corporate Governance Statement.

2.4 Board and senior executive diversity

At Pro Medicus, diversity of gender and background are two important criteria we take into account in developing our succession plans and appointment processes for our Board and senior executive positions. However, other selection criteria, in particular business acumen and industry experience, are also fundamentally important.

The Board will determine and monitor our succession plans and appointment processes with the aim of achieving our diversity objectives, including a balance in the number of women in senior executive positions and on the Board.

The Board will also oversee the designing and implementation of programs to assist in the development of a broader and more diverse pool of skilled and experienced employees, which is intended, over time, to prepare them for senior management positions.

2.5 Work and life balance

Pro Medicus believes in assisting employees to maintain a healthy and holistic balance between work, family and other commitments, activities and interest.

When we employ and promote people, we consider ability and not disability. We aim to create an inclusive environment that supports people and removes artificial barriers from the workplace.
